Nurses' Stations / Reception Areas

Organization and functionality are key requirements for modern medical nurse stations and reception areas. Nursing support areas are the hub of activity in a healthcare facility and each organization has different needs to address. AMCASE® specializes in

innovative, custom design to maximize space and productivity. Our design team will help you create a work environment that will assure quality patient care and optimum productivity. Let us help you create a beautiful, functional space that solves all of your individual needs.

Variety

We provide work environments for all types of nursing and reception areas:

- In-hall work stations
- Intensive care stations
- Observation stations
- Medical preparation areas
- Charting stations
- Check in/out stations
- Reception stations

Modular

Our products are reconfigurable and can easily be relocated as your business adapts to growth and change.

Customs

AMCASE® is committed to providing you with casework designed to enhance efficiency and productivity. Our design team will gladly customize your casework to your specific needs.

AMCASE® Advantage

Industry Experience

30 years of crafting quality casework.

Cabinet Options

We have over 10,000 cabinet configurations and accommodate a variety of custom orders.

Warranty

Limited lifetime warranty

Modularity

Individual cabinets to entire installations.

Depreciation

The flexibility of our casework system allows for 7 year depreciation vs. 39 years for millwork.

Attractive Pricing

Leveraging an on-site manufacturing facility allows AMCASE® to over-see their process and ensure efficiency, accuracy and keep costs competitive for the end-user.

State Contracts

Mike's Corner

Thank you for this opportunity to be considered for your current and future projects. We take pride in the fact that all of our casework is designed, developed and manufactured right here in the USA.

Our goal is to provide quality product that meets the demands of our ever changing environment. To that end we focus on providing quality modular casework products that have been carefully engineered to provide years of

dependable service. It is our hope that this brochure will give you a glimpse of our ever expanding capabilities and our commitment to offering you quality product designed for your specific application. We look forward to the opportunity to serve you in your modular casework needs.

Thank you!

Mike H. Mulford, President

AMCASE® strives to manufacture casework products that are environmentally friendly and superior in construction.

Our board core is CPA ECC 4-11 certified and is certified to CARB ATCM 93120 Phase 2 emission limits. AMCASE® products can contribute to achieving LEED Credits for Materials and Resources due to our use of recycled wood fiber and regional materials. We can also help contribute to Materials and Resources (through rapidly renewable materials and certified wood) and Indoor Environmental Quality (through low emitting materials) if specific product is requested for an upcharge.

Our AMCASE® representatives will gladly work with you on these categories. We have a network of dealers nationwide so contact us to find a dealer in your area.

Great Customer Care

From the first phone call to the final punch list, each job is handled by our AMCASE® team with great attention to detail, service, safety, and ergonomics. Our friendly staff is ready to help you design and implement your ideas. Need additional storage or custom applications? No problem. Give us a call and let us help you with your modular casework needs.
