PROJECT INFO:

Client: Medical Center Clinic

Location: MN

Quick, Helpful, and Convenient

That describes the multi-branch locations of this medical center's satellite pharmacies. It is the latest pharmacy to be outfitted with AMCASE® casework; a move that brings a modern and refreshing atmosphere to its customers.

These pharmacies are available to the medical center's patients as well as to the general public, and can assist with prescription and over-the-counter medications through their licensed staff.

REPEAT BUSINESS SPEAKS VOLUMES

At AMCASE®, we work hard on all types of projects, but we especially enjoy repeat customers. They confirm with each new order what we strive to do on every project; deliver high quality products with exceptional customer care from start to finish.

This pharmacy required a sensitivity to HIPPA regulations which incorporated privacy panels and sound deadening materials in and around the consultation areas. The final results were amazing, but the real reward came when we heard, "Thank you for always doing such nice work! They love it!"
