*P* Peace of mind and safety. That's what you need when providing a furnished living space for mental health patient care. No ordinary casework furniture meets these requirements, and Uvera™ is no ordinary casework. Engineered for safety, the Uvera™ product line offers a wide range of safety features including tamper proof fasteners, rounded edges, and concealed wall and floor mounts.

Uvera™ casework. When peace of mind and patient safety are priority.

# Uvera™

Mental Health Casework *for Patient Care*

**Desk Dimensions:**  
42" w x 30" h x 24" d

## Desk Unit

Uvera™ desks utilize a dual thickness work surface for added strength. The desk can be secured to the wall and floor using concealed wall cleats and floor mounting hardware. Rounded edges, and tamper resistant fasteners are used for patient safety.

## Description

What if a casework product existed that was built with safety as a top priority? What if this casework was designed after considering patient hazards present in a mental health facility and then designed to minimize them? Welcome to Uvera™ – a product line by AMCASE® that meets these needs that are specific to mental health patient care facilities and offers a variety of options to customize your living spaces.

For a complete guide on selecting Uvera™ casework, please see our catalog which lists available styles, sizes, and finish options.

## Bed Unit

Uvera™ bed units feature built-in, concealed floor mounts accessible with special removal tool. Side openings for pass-thru straps, and rounded edges for patient safety.

**Bed Dimensions:**  
83" l x 38" w x 18" h

**Bookcase Dimensions:**  
31" w x 42" h x 24" d

## Bookcase Unit

Uvera™ bookcases feature a dual thickness work surface, fixed shelves, rounded edges, and concealed wall and floor mounting options. Tamper resistant fasteners are used for stay-put construction.
