

WHAT'S NEW AT SCHOOL?

PROJECT INFO:

Client: Private School

Location: New York

We are! Although a bit taller and quieter than the students filling the classrooms, our modular casework furniture fit right in and helped provide a more organized, functional, and renewed learning environment for the children.

Like a drama team preparing for opening day of a performance, AMCASE® had to cover a lot of ground in a short amount of time to meet the time frame. And to everyone's delight, opening day was an encore performance.

The AMCASE® Solution

Time efficiency was among the highest of priorities for our client as school opening day was quickly approaching and they needed several floors of classrooms updated with casework furniture. By visiting a recent project, they experienced AMCASE's® quality and customization first-hand and decided to move forward.

Challenges did arise due to supplier constraints with the custom laminate color, however, AMCASE® and our dealer/rep team navigated around this with flexible manufacturing and by shipping specific floors to meet the tight installation schedule requirements. We not only met the deadline a day ahead of time, but received an invitation for our next performance.
